Mrs. P. P. Peterson Passes Suddenly

DIED—At the Galt Hospital Lethbridge, on Wednesday, March 12th, at 9:30 p.m., Edna Ellen Smith, beloved wife of P. P. Peterson, Champion, in her forty-first year.

Funeral Friday, March 14th, from the L.D.S. church, Lethbridge, to the Magrath cemetery.

The community was shocked by the news of the death of Mrs. P. P. Peterson in the Galt Hospital on Wednesday evening. Mrs. Peterson had not been in the best of health for some time and arrangements were under way to take her to a more suitable climate when the end came. An auction sale was in progress towards this end when members of the family were called to Lethbridge owing to the serious condition of the patient. They were fortunate in arriving in time to see her before the end. The whole community will join in extending sympathy to the family in their very sad bereavement. An obituary notice is held over until next week.

The Maude Henderson Players were greeted by a slim audience on Friday night, but there was a good attendance on Saturday night. Both plays were highly appreciated by those attending, and it is pity that this type of attraction does not receive better support.

C. H. Sutton arrived home from California Thursday. Mrs. Sutton and W. Anderson will remain in the south for a month or two, as the latter has not wholly regained his health after a severe attack of pneumonia.

The last dance of the season will be held in the Alston Community hall on Thursday, March 20. The Lou Davis orchestra will supply the music and a real time is anticipated. Everyone is requested to take part in this event. Admission \$1.25 couple.

Mr. and Mrs. L. T. Schwartz and Mr. and Mrs. Lundquist of Calgary were guests of Mr. and Mrs. G. A. Fath over the week end. The former couple are Mrs. Fath's parents, while Mrs. Lundquist is a sister.

K. R. McLean, R.O., of McLean & Anderson, Sight Specialist 318-8th Ave West, Calgary will make his monthly visit to Champion Friday, March 22 at the Drug Store.

Women's Institute Meeting

The Institute meeting was held at the home of Mrs. Woodhill and an extremely profitable afternoon was enjoyed by the twelve members and eleven guests who assembled. We listened to a good sound talk from our dentist, Dr. Hoal, on preventive dentistry. A very interesting thing regarding diet for good teeth was revealed when it was shown that the Eskimans are free from all dental trouble. They live on raw meat, mostly fish, not necessarily fresh. The bushmen of Australia have the next best teeth, they do not cook. Central Europeans have some bad teeth but not North Americans nearly all have.

Mrs. Martin, our Constituency Convener from Vulcan spent the afternoon with us and gave us the benefit of her advice and knowledge while discussing a resolution and a fine address on Constellation. Mesdames O. and F. Smith sang a charming duet, accompanied by Mrs. Hunt and Mrs. Colvill. Mrs. Martin and the hostess gave us quantities of sandwiches, cakes, ice cream and tea. The weather man gave us wind and dust and the members and guests gave \$2.25 collection.

P.M.—At the clinic to be held week after next the dentistry will be done at reduced rates.

BURKE—CRANE

On Wednesday evening at 8 o'clock, the home of Mr. and Mrs. R. C. Crane, 613 Thirteenth avenue west, was a scene of a pretty wedding, when their eldest daughter, Oona Estelle, became the bride of Clarence E. Burke, son of Mr. and Mrs. A. E. Burke, of this city. The drawing room was beautifully decorated for this occasion with palms, carnations and roses, and the ceremony was performed under a large wedding bell by Rev. Thomas T. Faichney of Wesley United Church. The bride, who was given in marriage by her father created a charming picture in her gown of white satin, with veil caught at each side with a cluster of orange blossoms. She carried a bouquet of sweet-heart roses.

Miss Dorothy Crane, sister of the bride, and Miss Neva McKeague were the bridesmaids, Miss Crane was becomingly gowned in blue, and Miss McKeague in yellow. Clayton Crane, was the best man. Miss Rachel Crane, sister of the bride, played the wedding march. —Albertan.

BUCHAN—COE

On Saturday evening, March 8, a quiet wedding took place at Wesley United parsonage, when Miss Dorothy Ruth Coe, daughter of Mr. and Mrs. Edgar Allan Coe, of Champion, became the bride of James Harrison Buchan, son of Mr. John Buchan of Champion, formerly of London, Eng. The ceremony was performed by the Rev. J. W. McElvin, and the happy young couple will reside at Champion.

Mr. and Mrs. Ray Warren returned this week from Anderson Missouri where they had spent the winter.

AUCTION SALE OF SCHOOL LANDS

PUBLIC NOTICE is hereby given that an Auction Sale of School Lands will be held in the Province of Alberta, at the place and on the date hereinafter mentioned:—

LETHBRIDGE, Tuesday, March, 25th, 1930, at 9 o'clock A.M.

The lands to be offered comprise only those which have reverted to the Crown owing to cancellation of former sales and which have been respected and valued at \$7.00 or more per acre.

The lands will be disposed of subject to the usual terms and conditions pertaining to the sale of School lands at public auction.

Where any parcels of land are not sold the cultivation privileges for the year 1930 will be offered at time of sale and disposed of to the highest bidder, in accordance with the terms and conditions which will be announced at time of sale.

TERMS OF PAYMENT

One-tenth in cash at time of sale, and the balance in eight equal annual instalments with interest at the rate of six per cent per annum on the balance of the purchase money from time to time remaining unpaid, except in cases where the area of the land sold does not exceed forty acres, in which cases the terms of payment shall be one-fifth in cash and the balance in four equal annual instalments, with interest at the rate of six per cent per annum; or payments, whether of principal or interest, to bear interest at the rate of seven per cent per annum.

For Sales Institutes, other places at which sales will be held, for further particulars see posters posted in post offices, or apply the Agent of Dominion Lands for district.

Lists of lands to be offered may be had by application to the Commissioner of the Interior, Ottawa, Ontario, or to any agent or sub-agent of Dominion Lands in the Province of Alberta.

By Order,

J. W. MARTIN,
Commissioner of Dominion Lands,
Department of the Interior, Ottawa.

THURSDAY, Mar. 13, 1930

NOTES AND COMMENT.

Dog taxes are again due. For some years past there seems to be a wide margin between the amount of dog taxes collected and the number of dogs making Champion their home. The taxpayers feel they have a real complaint in the matter, entirely because it seems possible for some people to avoid this tax with ease while others pay it. Even if a farm dog stays here for a year there would seem to be a possibility that if these dogs were destroyed their owners would have a greater interest in their whereabouts.

March is retaining its reputation for eccentric weather and even adding new laurels in that direction. Tuesday's dust storm was a real ringer.

The wheat market refuses to respond to the desire of all Canadian farmers, whether members of the pool or not, and insists on going down consistently. The long deferred rise should materialize soon.

A movement is on foot by the Newspaper Association to eliminate free advertising from the columns of newspapers as far as possible, as requests for free space flood every mail, while local affairs are difficult to ignore even if the space devoted to them is not remunerative. While rumors of matters are cast aside a great deal of it gets into print, and induces others to try the same methods. Big manufacturers, governments, and numerous others are offenders in this direction, and if one half of the matter submitted by the Red Cross was printed in a country weekly would look like a medical encyclopedia. A very general change is certainly desirable.

The near approach of spring is having a living effect on business of every kind, although money conditions are not entirely satisfactory. Implement men are getting busy and other preparations for seeding are under way. Farmers who spent the winter in town are now returning to their farms in preparation for the big crop to be put in in 1930.

The pool is not seeking a monopoly of the world's grain in order to gain control of the market. It is not attempting to hold up the price of wheat to the millers. It is conscientiously carrying out the functions for which it was created and in so doing it is doing no more than every sensible industry does—than the selling agencies of every human product does—than, for instance, the orange growers of California do.—Ex.

The progress made in changing from horses to power for farming operations has been so rapid that there has been no opportunity to dispose of the horses used under the old order of things with even partial

success in realizing their approximate value. There are a great many people who see a revival of horse farming in the near future, simply because the cost of tractor farming never seems to have been satisfactorily settled in the very essential matter of depreciation.

The U.F.A. are making very satisfactory progress in their canvas for shares in the Co-Op. company to handle gas, oils and other petroleum products. The scheme looks almost too good from the standpoint taken by the speakers, and that is one reason for the utmost care being taken by those spending the money for the instalment of the necessary system. There have been so many unfortunate co-operative investments on the prairies in the last forty years that unusual care should be taken to avoid further mishaps. Be sure you are right, then go ahead.

The Canadian farmers have an equal right with all other producers to organize themselves with a view to marketing their output in the most profit

able manner. They are not exceeding that right. They are not striking any blow at the domination—they are rather building up its general prosperity and enhancing its wealth by bettering the methods with which the products of its great—primary industry are brought into the world markets.—Montreal Herald and Weekly Star.

NOTICE
IN THE ESTATE OF CHARLES ERICK ANDERSON, late of Champion in the Province of Alberta, Deceased.
Notice is hereby given that all persons having claims upon the Estate of the above named, Charles Erick Anderson, who died on the 21st day of January, A.D. 1929, are requested to file with J. Fred Scott, 300 Lancaster Building, Calgary, by the 21st day of April, A.D. 1930, a full statement duly verified of their claims and of any security held by them and that after that date the Executors will distribute the assets of the Deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.
Dated this 28th day of February, A.D. 1930.

HAVE REACHED A SETTLEMENT ON RESOURCES

Ottawa.—When the representatives of the Saskatchewan and Dominion governments walked out of the conference room in the House of Parliament recently, the natural resources question—a question which has bedevilled political life in Canada for 50 years—had ceased to exist. Three months ago the natural resources questions affecting Manitoba and Alberta were solved.

Three weeks ago the question affecting British Columbia was finally disposed of. The Saskatchewan delegation took the train for Regina with a complete and permanent settlement agreed to.

The Saskatchewan resources question, although it has been decided, is not yet the subject of a signed agreement. But the agreement has been assented to verbally by the representatives of the two governments, and only awaits the framing of a reference to the Supreme Court of Canada in order to be completed. When that has been achieved, the representatives of the two governments will sign it and the words natural resources in the sense of a provincial grievance will disappear from the lexicon of politicians.

When Premier Anderson left the conference room, he made the following statement:

"After conferences covering several hours, the government of Saskatchewan has received a satisfactory agreement from the Federal Government in relation to its natural resources."

The legal representatives of the province and Dominion will meet within the next 10 days and decide upon what questions will be placed before the Supreme Court and, if necessary, the Privy Council.

"The agreement reached is finally signed until these questions are agreed upon. The conferences were carried on in a friendly fashion and the Saskatchewan delegation is leaving for the west with a feeling of satisfaction that this vexed provincial question is now on the way to an ultimate solution."

Premier MacKenzie King, in discussing the conference, said:

"The four western provinces now have their resources. The Maritime Provinces have had their difficulties adjusted. The whole country is free of its problems and attention given to them."

"As for the Saskatchewan question, Premier Anderson is well pleased with the decisions reached, and, for my part, I am gratified with the result."

The agreement arrived at with Saskatchewan may be outlined, unofficially, as follows:

1. The Dominion will receive the unlimited resources immediately.

2. The subsidy in lieu of resources will be continued until statutory increases, in perpetuity.

3. There will be a reference to the Supreme Court of Canada to discover whether or not the Dominion lands act of 1872 is *intra vires* or within the power of the Dominion government, *in toto* or in part. (No doubt the decision of the Supreme Court will be appealed to the Privy Council regardless of which way the decision may go.)

4. A Royal Commission of three members will be appointed to discover what further amounts of money, if any, the province of Saskatchewan may be entitled to receive in order to be placed upon a footing of equality with the other provinces.

High Cost Of Burial

Federal and Undertaking Charges To Be Investigated By Alberta Government

Edmonton.—Funeral cost and undertaking charges in general will be investigated by the Alberta Government as a result of a motion passed unanimously by the House and introduced by W. W. Prevey, Liberal, Edmonton, reading as follows:

"That in the opinion of this assembly the government should give early consideration to the whole subject of undertaking and particularly to the prevailing charges and costs involved and if necessary to introduce legislation regarding the same."

Makes Altitude Record
New York, N.Y.—Driving his twin motored Sikorsky to an apparent altitude of 19,500 feet, Capt. Boris Berestovsky, late of the Imperial Russian Air Corps, brought back to his adopted country the altitude record for seaplanes carrying a useful load of 3,000 kilograms (4,009.3 lbs.). The record, held by France, was 15,837 feet.

W. N. U. 1828

Mounties Find Body Of German Scientist

Mystery Surrounding Disappearance Of Dr. Kurt Fabel Is Solved

Edmonton.—Believed to have fallen victim to a northerly blizzard and his body torn and disfigured by wolves, the remains of Dr. Kurt Fabel, noted German journalist and scientist of Berlin, was found Saturday, March 3, in a Royal Canadian Mounted Police patrol, 15 miles above Lower Hay River post in the Northwest Territories, according to information reaching here.

Only the most meagre details were contained in a brief note received at R.C.M.P. headquarters, which told of the finding of the body of the missing northern traveller, who left Edmonton in September of last year, intending to proceed from Peace River, to Fort Vermilion, down Hay River to the lower post on Great Slave Lake and then continuing to Fort Resolution and Port Smith to Fort McMurray. The greater part of the journey was to have been made on foot.

Enquiries have been broadcast throughout the north for any information as to Fabel's whereabouts since last December at which time Dr. K. Martin, German consul of Winnipeg, had been asked to notify him, critically ill at her home here. Since January both Alberta Provincial and Royal Canadian Mounted Police patrols have been on the lookout for the body.

Dr. Fabel was a free lance correspondent for the well known *Schereff* magazine of Germany, and had travelled in many parts of the globe in his profession.

Air Mail Benefits Coast

Eastern Cities All Brought Two Days' Closer Through Prairie Service

Vancouver, B.C.—Vancouver, once again, is the beneficiary of a service introduced from the East by the height of mountains, was brought 24 hours closer to the prairie, and 48 hours closer to Atlantic cities, by arrival of the first all-Canadian air mail from Winnipeg.

Seven thousand letters, posted in Winnipeg, Monday night, were carried as far as Calgary by aeroplane, and arrived here by train at 9:30 o'clock on Wednesday morning, having been delivered to city residents an hour and a half later.

The new service, a whole day is cut from the communication time to prairie cities lying east of Moose Jaw, and two whole days to Hamilton, Toronto, Halifax and various nearby United States and Canadian cities.

Equal Franchise Bill Rejected

Quebec Legislative Assembly Opposed To Votes For Women

Quebec.—By a vote of 44 to 24 the legislative assembly defeated the measure introduced by Renee Vachon, Liberal, St. James, to give women the right to vote in provincial elections.

While the vote was adverse to the feminine cause, adherents were gaining, and in speeches made by Hon. A. St. Laurent, provincial secretary, it was laid down with emphasis that sooner or later the cause of women would be victorious. Premier Taschereau voted against the bill.

Fourteen Killed By Landslide

Rock Crashes Down Cliff On Gay Carnival Crowd

Funchal, Madeira.—Sweeping down from a high rock hanging over the sea, a great landslide killed at least 14 persons, including several children. Directly underneath the cliff a carnival was in progress.

Scores of children were playing on the beach when the tons of rock slid down the cliff with a terrific roar and crashed upon the beach in the sea. The scene of gayety quickly gave place to cries of mortals, who faint as the bodies were brought out to the shores and rocks.

Will Resume Hunt

London, England.—Prince of Wales has recovered so rapidly from the sub-tropical malaria that he will resume his hunting in the month of May. A dispatch to *The Daily Mail* from Nairobi, Kenya colony, said he probably would go to Entebbe, Uganda, on Lake Victoria, and use a lake steamer as a base for his expedition. No more bullets on the prince's command will be issued at Nairobi.

Death Of Viscount Gladstone

London, England.—The Rt. Hon. Viscount Herbert Gladstone, youngest son of William E. Gladstone, of Victoria era, died from an illness which began with an attack of bronchitis in January. He was in his 76th year.

Prison Keeper Killed

Official Of Auburn Prison Struck To Death By Innate

Auburn, N.Y.—Edward L. Beck, prison principal keeper, was struck to death in the mess hall of the institution by Anthony Morello, inmate, and became the third in succession in that office to lose his life at the hands of a convict.

The news of the fatal stabbing came at the height of the trial of Max Becker, gunman and convict, charged with the murder of the man Beck with razors a year ago. Benjamin B. Cunningham immediately recessed court.

Dunford was killed in the second prison riot at Auburn within five months in 1926, that of December 11. About two years ago James B. Baran, whose place Dunford took, was cut down by a stabber. The stabber was executed.

Beckwith was stabbed near the heart. Troopers said there was excitement but to disorder in the hall. About two years ago James B. Baran, whose place Dunford took, was cut down by a stabber. The stabber was executed.

Beckwith was born in Canada on November 14, 1874, but the city of his birth was not known at the time. His wife, critically ill at her home here, was informed that her husband had been taken ill.

NEW HOPE FOR THE CAUSE OF DISARMAMENT

London, England.—New hope for the cause of disarmament at a time when criticism of the London naval conference is growing because of delays, was contained in a statement issued by Colonel Henry L. Stimson. The informal statement, by way of the American delegation declared that not only naval limitation but a reduction of at least 250,000 tons in the United States fleet, and an even greater cut in the British fleet could be achieved at the London conference. The statement issued in response to many appeals from the United States as to what the conference is doing.

"The surest way to answer that is to give such results as seem to be within reach up to date. A plan which in its essentials appears to be acceptable to America and Great Britain provides for net reduction in tonnage of the American fleet in capital ships, cruisers, destroyers and submarines, by 200,000 tons and an even larger reduction on the part of the British fleet."

"If vessels authorized but not commenced were included in existing fleets, the amount of reduction would be greater. Of course, these reductions are contingent upon some reduction being made in the fleets of other powers."

The Stimson statement came unexpectedly at the close of a day of meetings and conferences, from which came only the same reports of uncertain progress that have featured proceedings since the French political crisis arose.

NEW RED CROSS HOSPITAL AT EDMONTON

For the second time in a few months we are able to print pictures of a new Junior Red Cross Children's Hospital at Edmonton. It is situated on the exterior and one of the wards in the new hospital at Edmonton, opened in January. It has a capacity of 30 beds.

GENTLEMAN USHER

Major Drew Thompson, who is a gentleman usher of the black rod, is in the Federal House of Parliament at Ottawa, corresponding to sergeant-at-arms in the provincial legislature.

Promise Highway To Saskatchewan Border

Road From The Pas Is, However, Subject To Conditions

The Pas, Man.—Citizens of The Pas, have been definitely promised a highway from here to the Manitoba-Saskatchewan border if the Saskatchewan Government would build a road to connect with the proposed highway from Hudson Bay Junction, north of Prince Albert, Sask. Premier John Bracken of Manitoba, told a meeting of the citizens that a road from The Pas to the border would be built under this stipulation.

The Premier said his government was now engaged in completing its program of main trunk road extension and nothing would be added until that program was completed. He added, however, that in the next road program the road from The Pas to the Saskatchewan border would be the first construction undertaken.

Premier Bracken indicated that the Manitoba Legislature would shortly pass a resolution urging construction of the Mackinac railway cutoff. He hoped this would receive favorable consideration from the Canadian National Railways.

In concluding the Premier intimated that the support of his government would be extended to the Imperial government if it displayed interest in the reclamation of the Carrot River triangle as an area for settlement of British agriculturists.

Ex-Service Men Represented

Eleven War Veterans On Committee Probing Soldiers' Problems

Ottawa, Ont.—In the composition of the special parliamentary committee on pensions and returned soldiers' problems, the prime minister has carried out his promise to have 200,000 people so constituted that ex-service men of all parties would have adequate voices in the committee. Of the 19 members of the committee, 11 are war veterans, of whom six are Conservatives and five are Liberals, and of the remainder, several had sons who were overseas.

Air Mail Popular

Ottawa.—Total of 420,636 pounds of mail was carried over Canada's 20 air mail routes during 1929 at a cost to the country of \$474,071. Heaviest route was between Narrows Lake and Sioux Lookout, Ont., where 83,406 pounds were carried.

Immigration Policy Changes

Federal Deputy Minister To Interview Provincial Governments

Winnipeg, Man.—Changes in the immigration policy of Canada decided by the Dominion cabinet, were before Hon. Jas. Albert Prefontaine, Minister of Agriculture, and Hon. R. A. Hoey, Minister of Education and the provinces, by W. J. Egan, Federal Deputy Minister of Immigration.

Following the conference the two Manitoba officials made a formal statement in which they declared that "they are glad to advise that the general policy laid down in connection with provincial co-operation, is, in their opinion, workable, but they are not prepared to discuss details until they have a further conference towards the end of the month."

Mr. Egan said that he had nothing to say about the Dominion government plans. He would interview every provincial government from coast to coast, he declared, before any official announcement would be made. Questioned about the term "general policy," Mr. Prefontaine replied this meant the plans outlined by the Federal government. The Minister of Immigration, he said, had made tentative arrangements which would be subject to change.

Brydges Wins Dog Derby

Finished Race Twelve Minutes Ahead Of St. Gobard

The Pas, Man.—Battling obstacles and a heavy snowstorm, Harry Brydges, 22, of The Pas, won the dog derby by capturing his first 200-mile The Pas dog derby.

Emil St. Gobard, the champion and favorite, finished twelve minutes behind Brydges. Brydges crossed the finish line at the north end of the town at 12:10 o'clock to the cheers of hundreds of spectators.

He was carrying one dog of his nine dog team, on the sleigh. Emil's team, which was tired, finished at 12:31 o'clock, he was carrying three dogs on the sled, but Toby, the famous dog, was still in the key position at the last.

In capturing the derby Brydges won the first prize of \$1,200 cash as well as the Grant Rice-Walter Goyne trophy.

TARDIEU CABINET EMERGES WITH GOOD MAJORITY

Paris.—Andre Tardieu's second cabinet ran the gauntlet of the Chamber of Deputies and, although roughly thumped by the parties of the Left, it emerged with a favorable majority of 53. The rectified ballot was announced as 316 to 235.

The appearance of the second Tardieu cabinet before the chamber was the signal for one of the bitterest parleys in French history. The chamber was witnessed, the sessions being suspended at one point.

The premier's declaration was interrupted by a tumult from the Radical and Radical benches. The opposition, smarting under its failure to regain power with the Chautemps cabinet, taunted the deputies on the left who had accepted portfolios in the new ministry, and drowned the premier's voice.

Tardieu merely smiled at the demonstration and finished reading his declaration. The winning margin of confidence was almost twice as great as political forecasters had been ready to grant the cabinet in advance of the voting. Most of them agreed that a margin of 50 votes would be a sign of strength for Tardieu, and as the battle raged on, the ministerial declaration of policy progressed, some of the prognosticators began to believe that the cabinet would be lucky to win at all.

As a consequence the government will go back to the London naval conference and will face the chamber on the question of ratifying the Young plan, revising taxes and passing a budget with enhanced printing. The new naval delegation consists of Premier Tardieu, Aristide Briand, foreign minister, J. L. Dumesnil, minister of marine, Francis Pietri, minister of colonies, Ambassador De Fleurbaey and Senator Gustave De Kerguelen. Of these, Tardieu, Briand, Pietri and De Fleurbaey were members of the original delegation.

The naval conference has been progressing without the French officially represented, but its progress has necessarily been slow and the responsibility for the delay will be a signal for resuming the negotiations at full speed.

Report Is Denied

Ottawa.—Reports that a large number of Canadian soldiers had entered Canada recently, were brought to the attention of the House of Commons by Hon. R. J. Manion, (Cons., Port Williams) and denied by Hon. Charles Stewart, acting minister of immigration.

Dunkirkers Released

New Westminster, B.C.—One hundred Dunkirk prisoners and other women released from Okanagan jail following completion of six-month sentences they had served for having aided the Food and War Relief Council in the province of British Columbia. The release was made by the provincial highway near South Skeena last August.

BRITISH NAVAL ESTIMATES ARE PARED DOWN

London.—British naval estimates for 1930, made public recently, show a net total of \$31,730,000 against \$35,865,000 for 1929, or a reduction of \$4,135,000.

Rt. Hon. A. V. Alexander, First Lord of the Admiralty, in a statement in which they declared that the substantial decrease was due principally to reductions which the government felt justified in making in the shipbuilding program of 1928 and 1929, in accordance with a policy already stated in Parliament—that is, trimming of naval building to meet decreased needs produced by the Brand-Kellogg pact and other peace instruments.

He summarized the reductions as follows: Five vessels of the 1928 program have been cancelled, namely, two cruisers of the 10,000-ton type with 8-inch guns, two submarines and one submarine depot ship.

Twenty vessels of the program of 1929 have been cancelled, namely, two cruisers, four torpedo-boat destroyers, three submarines, two sloops and one minesweeper. The total cost of the 1929 has been cancelled is \$4,135,000.

Mr. Alexander said that the effect of changes in the full program of shipbuilding for 1929 is to reduce expenditure of new construction in these estimates by over \$4,000,000.

With regard to future shipbuilding, he said that he had not yet decided whether the three remaining lines of the 1929 program are to be proceeded with or have been deferred until the next year.

Mr. Alexander claimed that the effect of changes in the full program of shipbuilding for 1929 is to reduce expenditure of new construction in these estimates by over \$4,000,000.

Inventors Not Protected

No Reward For the Agricultural Inventor, Says World Wheat Champion

Saskatoon.—Pointing out that there was no reward for the agricultural inventor, that he had not patent his invention, Major H. G. L. Strange, of Penn, Alberta, whose wheat champion in 1928, in an interview here, said, "therefore is included in these estimates for commencing any further new construction in 1930."

Breaks International Law

Peking, China.—Contrary to international law, Chinese customs have shipped large quantities of opium to China for use by forces of President Chiang Kai-Shek. Chinese Chamber of Commerce has protested to the German consul-general at Shanghai.

Will Help Canada's Trade

Tokyo.—Before leaving for Canada on a six months' tour, A. Ernest, Oriental traffic manager of the Canadian National Railways, expressed the opinion that recent strides made in Japanese shipping and port facilities would have a good effect on Canada's trade with Japan.

Morphine Seized At New York

New York, N.Y.—Morphine valued at \$100,000 was seized on pier 57, North River, leased by the French line, in two large trucks apparently owned by a first-class passenger on the "Le France," who had left the vessel a few minutes before it was learned.

Report Is Denied

Ottawa.—Reports that a large number of Canadian soldiers had entered Canada recently, were brought to the attention of the House of Commons by Hon. R. J. Manion, (Cons., Port Williams) and denied by Hon. Charles Stewart, acting minister of immigration.

Canada and War

Canadians unquestionably are deeply interested in the Five Power naval party now in progress in London. They are really anxious that it should have a successful outcome, and that as a result there shall be not only further reduction in naval armaments, but a new and better understanding established between the great naval powers.

Canada, considering its size, geographical position, population and wealth, spends less on defence or preparation for war than any other country in the world. To all intents and purposes, Canada is and has been disarmed. If other nations maintained armaments and navies proportionate to population and wealth reduced to the Canadian scale, the whole world could be said to be disarmed.

Yet Canada knows what war means. During the years 1914-1918, the people of this Dominion learned the bitter lesson of war's tragedies, and each succeeding year, since 1918, has only served to emphasize that lesson. Canada paid in the loss of its young manhood, in its army of wounded, many maimed and crippled for life or permanently undermined in health. Canada paid, then, in paying now, and will continue to pay for many years to come, in dollars and cents for the huge cost of war and war's destruction.

Even so, it is doubtful if the average Canadian realizes what war, even preparation for war, actually means to this old world. As already stated, Canada's annual expenditure for war purposes,—that is, aside from the burden imposed by the Great War for which our people were in no sense responsible, but participation in which was duty forced upon us,—is slight. At most negligible, a very small percentage of our total annual expenditure as a nation. But, this is not true of all other great nations, and most of the small and minor nations.

For example, the United States, removed from the dangers and complexities of European entanglements, and largely occupying a position of isolation, spends on its armament budget a larger sum annually than any other country in the world, although the percentage of its total income so expended is smaller than in other countries. And it is a startling fact that the amount so expended is increasing. In the four years before the Great War the average annual expenditure of the United States on armaments was \$400,000,000. Ten years later it had risen to \$875,000,000. If Canada followed the example of European nations, we, too, would be spending a crushing amount merely because our next door neighbor is doing so.

In 1913, before the war, Great Britain's annual expenditure was just under \$400,000,000. Last year it was \$575,000,000. Every one of the Great Powers, except Germany, which was compulsorily disarmed, is spending much more today on armaments than was spent before the Great War. And this despite the League of Nations, the Kellogg Peace Pact, and treaties galore pledging the nations not to engage in offensive warfare.

Great Britain spent \$50,000,000,000 on its part in the colossal tragedy of the Great War. It left Great Britain with a war debt of over \$35,000,000,000. Interest on that sum calls for \$1,720,000,000 a year. For debt purposes alone Great Britain has to raise by taxation \$5,000,000,000 a year, or \$3,000 every minute. It takes the whole time labor of 2,000,000,000 workers year in and year out to pay the annual cost of the debt burden. Add to this the \$75,000,000 spent annually on armaments, and \$280,000,000 for pensions, and a total of \$2,050,000,000, or \$3,000 a minute has to be raised by taxation, or three-quarters of the money amount of all Government expenditures. Is it any wonder there is business depression and unemployment in the British Isles?

If the London Naval Conference is successful in part, namely, the matter of what is termed "Capital" ships, the saving to three countries alone, Great Britain, United States and Japan, will amount to \$1,000,000,000, or twice the total annual expenditure of the Government of Canada for all purposes. Or put it another way, if Manitoba could take into the treasury of the Province the sum of money contributed by the construction of but one 10,000 ton cruiser is cancelled, not only would all Manitoba's bills be paid for an entire year, but a surplus of \$3,000,000 would remain on hand.

Apart from all human, Christian reasons for disarmament, the above figures indicate the economic dollars-and-cents aspect of this great problem.

Canada paid, and is paying for war, let us say and pay generously and ungrudgingly for peace, by supporting the League of Nations with all its power. Every individual Canadian, man, woman and child, should be a peace advocate, an unqualified supporter of the League, and full Canadian participation in the League. They should unitedly pray for the success of the League conference.

How Lincoln Became Lawyer

took Up Study After Defending Himself in Court Case

Abraham Lincoln's success in using the law in his own defence, was declared by Quin O'Brien, Chicago attorney, as the circumstance that decided Lincoln to become a lawyer.

O'Brien spoke at a Lincoln meeting. Recently found records were quoted by the speaker as revealing that Lincoln had been arrested for operating an unlicensed ferry boat on the Ohio River. Or, according to the records, he fell in law to defeat the charge and later became a law student in earnest.

One of the best ways of preserving peace is to keep alive the memories of the Great War.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. Be safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that it makes claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

Many a romance that begins beside a splashing waterfall ends by a leaky faucet.

May Use Pulverized Coal

By Its Advantages

The British Columbia Department of Mines, fully aware of the difficulty which the coal industry has been facing, has been making investigations into the uses and advantages of pulverized coal, and has secured the assistance of the fuel research laboratory at Ottawa. In an address before the Vancouver Chamber of Mines, J. D. Galloway, provincial mineralogist, expressed the opinion that if pulverized coal were used properly there would be no excuse for the importation from California into British Columbia of a single barrel of fuel oil. British Columbia produced 2,313,000 tons of coal last year. Of this, about 140,000 tons were used in pulverized form in various industries. The Vancouver Province says it seems highly probable that if the uses and advantages of pulverized coal and the facilities for using it were brought more forcibly to the attention of the people of the province, a better day might dawn for one of British Columbia's important industries.

WAS RUN DOWN AND VERY WEAK

Too Little Blood The Trouble and Tonic Treatment

Restored Health

"I am springing to tell you," says Mrs. James A. Haugh, Bridgewater, N.S., "the great health benefit I received through the use of Dr. Williams' Pink Pills. I had become badly run down and very ill, but felt so that I could only with difficulty do my housework. I suffered from indigestion, and had very little desire for meals. The trouble affected my nerves, and as a result I did not sleep well at night; and would often awake with a chill, and as a result I was unable to sit up in bed. I was taking treatment, but it did not help me and I was losing courage. I saw an advertisement of a case which seemed much like my own, and I was relieved by the use of Dr. Williams' Pink Pills. I took five pills three times a day and two boxes. Before these were all gone there was an improvement in my appetite, and seemed a hopeful sign. I procured a further supply of the pills and found a steady improvement in my health. I could sleep at night, and at night, and my housework was no longer a task beyond my strength. From my own experience, I can give weak, run-down people to give Dr. Williams' Pink Pills. I feel that they just as readily do for me, as they do for you."

If you will send your name and address to Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building up the Blood," will be sent you free. This little book contains many interesting facts which you can get these pills through any medicine dealer or by mail at 50c a box from Dr. Williams' Medicine Co., Brockville, Ont.

Radio Fans To Organize

Listeners-Into To Form Organization For Self Protection

Leagues of radio fans are being formed in Canada, according to press reports, for the avowed purpose of insisting that the desires of "consumers" or listeners shall receive more consideration than is the case at present. Their primary object is to fight against the overwhelming volume of advertising that is a big part of the majority of radio programmes. These leagues or societies of radio fans are understood to favour the recommendations of the Radio Commission which recently suggested the nationalization of radio broadcasting in Canada, and the suggestion is to be considered by Parliament during the present session. The Commission advises that all private stations be taken over by the Government and recommends the establishment of seven national broadcasting stations.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action is so fully effective is mild.

World's Poultry Congress

At the World's Poultry Congress, to be held in the Crystal Palace, London, England, next July, Canada will be a conspicuous participant. The Canadian exhibit of live birds will total about 1,000. The last World's Poultry Congress was held in Ottawa, in 1927.

Internal parasites in the shape of worms, the stomach and bowels of children sap their vitality and retard physical development. The child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure shooers to worms.

"Scientists predict constipation may be made useful," says a Vancouver paper. "They've already seemed useful to unloading up the corn."

Social Hygiene Council To Meet

Next Annual Meeting To Be In Toronto, April 30 to May 2

The next annual meeting of the Canadian Social Hygiene Council will be held from April 30 to May 2, inclusive, in the Royal York Hotel, Toronto. Last year's it will be remembered, was in Montreal, during the month of June, in conjunction with those of the Canadian Medical Association and the Canadian Public Health Association.

Since the programme is in process of preparation, it is not yet possible to forecast it in detail. Certain arrangements have been made, however.

The reports and discussions will centre around three subjects: Health Insurance, Venereal Diseases, and Periodic Health Examination. It is expected that a good many national organizations will be represented at the meetings, since the Council is made up of representatives of existing national groups in addition to those of its own province and local branches.

To date the following organizations have accepted representation: Canadian Association of Child Protection Officers, Association of Canadian Clubs, Canadian Federation of Women's Labor Leagues.

National Council of Women of Canada.

Royal Architectural Institute of Canada.

Canadian Medical Association.

United Farms of Canada.

National Council Young Men's Christian Association.

Canadian Association of the Young Women's Christian Association.

Canadian Manufacturers Association.

Trades and Labor Congress of Canada.

Knights of Columbus.

City of Montreal.

Canadian National Safety League.

Addresses on the various phases of health insurance will be given by representatives of the following: Wage Board, Mr. James Simpson, vice-president of the Dominion Trades and Labor Congress, Mr. H. W. Macdonald, of the Canadian Manufacturers Association, and Dr. Harris McPhedran, the last three giving, respectively, the attitude of Labor, the Manufacturer and the Medical Profession.

Much enlightenment is expected on the question of venereal disease, when Dr. C. P. Fenwick, of Toronto, and Dr. A. M. Davidson, of Winnipeg, will detail the results of surveys made in their respective cities. A representative from Quebec will tell of the results of the survey made in the Province of Quebec, Dr. E. J. Trow of syphilis in pregnancy, and Dr. C. H. Hair will make some observations on the control of these diseases.

Several speakers from various parts of the Dominion and the United States will talk about Periodic Health Examination. A very complete programme of discussion is being arranged, in connection with this important procedure which has the endorsement of the medical profession, departments of health, and the life insurance companies as a most outstanding feature of life and health conservation.

Dr. J. W. Frazer, of Kitchener, who has had much valuable experience with periodic examination of school age children, will give a paper on this subject.

Persian Balm—the perfect aid to beauty. Essential to real feminine distinction. Results always in the highest expression of beauty. Its use keeps the hands always soft and flawlessly white. Indispensable to the whole family. Imparts added charm to the mother. Serves the father as a hair fixative and cooling shaving lotion, and protects the tender skin of the child. Persian Balm is the true toilet requisite.

Aerial Passage Over the Rockies

Air Routes Must Be Surveyed Before Cost To Coast Air Service Is Insured

A dozen recorded aerial passages of the Rockies emphasizes the need of a government survey of air routes in British Columbia. The Canadian transcontinental air mail is to go into operation this year, but it will only be "transcontinental" as an aspiration and a possibility. It will begin at Quebec, or perhaps, in the summer months, on the Maritime coast. It will make the head of the Great Lakes by daylight flying, over the thousand miles of the prairies in a night, and end at Calgary. Until proper survey has been made of air routes in British Columbia, we shall have no thirty-two-hour mail from Vancouver to Montreal, and the cross-Canada air mail will still be "unbusiness."

An educated man is one who knows whether the Chinese are fighting against or yet.

Minard's Will Kill Corns.

Mr. Baby has COLIC

A cry in the night may be the first warning that baby has colic. To cause for alarm if Castoria is handy! This pure vegetable preparation brings quick comfort, and can never do the slightest harm. Always keep a bottle in the house. It is the safe and sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it suitable for the tiniest infant, and for frequent use. Castoria is always better for growing children than some needlessly strong cathartic meant only for adult use. Genuine Castoria always has Chas. H. Fletcher's signature on the wrapper. Free-scribed by doctors!

Two Valuable Recipes

CREAM RICE PUDDING

4 tablespoons rice.
1/2 cup sugar.
1/2 teaspoon salt.
2 cups Borden's St. Charles Milk.
1 1/2 cups water.
Nutmeg.

Wash the rice thoroughly, then with the sugar and salt to the milk, heated with water. Pour into a buttered baking dish and add a sprinkling of nutmeg. Set the dish in a pan of hot water and bake three hours in a slow oven (300 degrees Fahrenheit), stirring several times. The first hour is to prevent the rice from setting to the bottom. Serve hot or cold.

CREAM OF TOMATO SOUP

2 1/2 cups canned or fresh cooked tomatoes.
1/2 small onion, sliced.
2 stalks celery, minced.
1 tablespoon minced parsley.
1/2 bay leaf.
Whole cloves.
1 teaspoon salt.
1/2 teaspoon pepper.
1 teaspoon sugar.
1 teaspoon onion.
2 tablespoons butter.
2 tablespoons flour.

Melt butter in saucepan, stir in flour. Dilute milk with water, pour slowly into butter and flour, stirring until it thickens. Continue to cook five minutes. Just before serving, add soda to tomatoes, gradually add tomatoes to white sauce, stirring constantly, serve immediately.

All or any of the vegetable seasonings may be omitted, but their addition gives a smooth, well-blended flavor to the soup.

"Where did Brown get his money?"
"In the hold-up business."
"Never!"
"Yes, he manufactures garters."

"Is your wife having any success in search to drive the cat?"
"Well, the road is beginning to turn when she does."

Boys' Colic Competition

Great Interest Shown In Competition In Connection With Manitoba Winter Fair

The growth of the Boys' Colic Competition of the Manitoba Winter Fair gives indication that the affair will soon rank with the boys and girls fat cat competition as a leading feature of the exhibition. On account of the rapid strides made the Federal Department of Agriculture announces that an extra \$400 will be added to the \$500 already in effect for prizes.

For Rheumatic Pains—The pains and aches of Sciatica and Rheumatism which are treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Cannot Talk Progress Canada's programme may be slowed up by market crashes and wheat tie-ups, but it cannot be halted. The twentieth century is Canada's. Occasionally her people in their enthusiasm go a bit too fast. Then they must slow down to catch their breath. That's what is happening at the present time.—Toronto Telegram.

PHILLIPS' PINK PILLS
For Troubles due to Acid in the Blood
It is the only medicine that cures indigestion, constipation, and all the troubles of the stomach and bowels. It is the only medicine that cures indigestion, constipation, and all the troubles of the stomach and bowels. It is the only medicine that cures indigestion, constipation, and all the troubles of the stomach and bowels.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude herbs. Use what your doctor would use—now—why this method is so simple.

The best help is Phillips' Milk of Magnesia. For the reason that Phillips' invention it has remained standard with physicians. You will find nothing so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no after-effects. The more you learn this fact, you will never want to learn excess acid in the cruds, ways, or now—why this method is so simple.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any druggist.

CHAPTER IV.—Continued.

"You look elegant as well as prosperous," she added. "Lend me a helping hand, Jim, so I can descend gracefully."

Jim grimaced, and stretched out the hand obligingly. "I came," he began, frowning at you, Jimmy, but you sold ground again, looked up at him, "to see if you were going to the strawberry festival tonight. If you are, I'll stop for you with the car as I go along."

A disconcerting smile curved the girl's lips as she replied: "That's thoughtful of you, Jimmy, but you needn't bother because I—"

"Neither," he exploded. "Who said it was a bother?"

Canada's Participation

CANADA is taking a prominent part in the Fourth World's Poultry Congress, London, July 22 to 30, 1930.

National Exhibits.
Provincial Exhibits.
Commercial Exhibits.
Live Bird Exhibits.
1,000 birds—the largest exhibit from any country.
500 delegates—the most from any country except Great Britain.

Two After-Congress Tours

After the Congress—an eleven day tour of the British Isles—Lakes, Shakespere country, North Wales—Inland, Lakes of Killarney, Dublin, Belfast—Scotland, the Trossachs, Edinburgh—back to England, London, the English Lakes.

Then a Continental tour—Russels, Holland, the Hague, Amsterdam, Frankfurt, Munich, Oberammergau (to see the Passion Play), Switzerland, Paris.

Canadian and United States delegates and visitors sailing together from Montreal, July 12th, on the "Dubouché de York."

dium of mine, Doctor. He used to carry my books to school for me and fight my battles. You ought to be friends."

The young man on the step ladder looked the reverse of friendly at just that moment, but he descended, and reluctantly gripped the hand which the doctor had extended.

"I was only giving Charman a little help," he explained, somewhat breathlessly, and added, a belligerent note creeping into his voice, "this is no sort of work for a girl. It seems to me."

"You're right, Miss Davis will tell you that I told her to touch it. I expected to go with Doctor Houch this morning, but when I told him of this scheme for an office he gave me the day off. He thought it a great idea, and I'll say I'm in luck! I'll get some old clothes and be back in a jiffy at a pitch in."

"Well," began Jim, removing the duster and reaching for his neatly folded coat, "you won't need me now so I'll run along. I—suppose you see an awful lot of that fellow, Charman?"

Charman was obliged to conceal a smile of triumph at this evidence that Miss Darling was not omnipotent.

"I eat three meals a day with him," she answered. "Later on, if I get the school, he'll have his dinners at the hotel."

"It makes me hot—your cooking meals for him," confessed Jim, as he slipped into his coat.

"What nonsense," laughed Charman. "Can't a body take a board without making you look like a thunderstorm? Wipe that scowl off."

"It's not me you mean to be so much nicer when you smile. Say! if you've got time, run in and speak to Grandma, won't you? She gets lonely some sitting there in a log; and why not stop in tonight and go along to the festival with us, Jimmy?"

"To have you, honest little fellow, cross my throat and hope to die," as we used to say."

"This was reward of merit for his offered help; but Jim answered, a sarcastic sneer to his lips that was something new: "Seems to me I've heard somewhere that there's a crowd. Thanks, my dear, but I know enough not to butt in where I'm not wanted."

"As far as I'm concerned," began Charman, knowing that down inside he was really hurt, but John Carter's untimely entrance interrupted what was intended for a soothing speech, and with a smothered "Damn," that wasn't really so smothered as it should have been, Jim took his departure.

The doctor gave vent to an expressive exclamation as he watched the young man's muscular figure move swiftly across the gravel driveway.

"Your friend, that's not to like me," he ventured ruefully.

"Give him time," smiled Charman. "He's slightly irritated this morning because he's planned to escort me to the strawberry festival tonight and you've cut him out!"

"He is, I take it, the man who has recently been snubbed of a green hat."

"The same," admitted Charman, showing a bewitching dimple. "But now he's got to work. If you'll take Jim's place on the ladder we can accomplish wonders before I have to be gone."

Meanwhile Jim Bennett had crossed the strip of lawn and walked in on Grandma, who was watching with interest the struggle of two small boys over a stick of candy, which drama was taking place on the opposite sidewalk.

"There!" she exclaimed, with a nod of welcome, "they've broken it all to bits, and serve 'em right for being piggyish. I don't like that Eldridge boy. He's always picking on the younger ones. Well, Jim, you're quite a stranger. Sit down. How happens it you're here?"

Mr. England was born in Ireland. He came to Canada as a youth and graduated in arts from Queen's University. Later he took a post-graduate course in Paris, under a manorial scholarship which he won after teaching for some years in Saskatchewan. He was overseas during the war and was the military cross.

Cheese Is Good Food
With Wholehearted Bread and Fruit It Is Real Meal Says Dietitian

Without a dietitian to prescribe his food habits, Julius Caesar chose a healthy food—"Caseum Helveticum," Helvetic cheese. Wise as he was in the ways of conquest, Caesar knew no more than others of his time about vitamins. In ancient days, however, the diet of the Olympian athletes consisted of fresh cheese, dried figs and wheaten porridge.

It is possible that Caesar may have known the facts assembled several decades after his death by Pinus the Elder, and Pinus the Younger, who wrote of Zoroaster, 1000 B.C. living for twenty years exclusively on cheese. He had no nutrition experts as Dr. Mary Swartz Rose, to plan his dietary. As to the healthfulness of cheese, she writes:

"Half a pound of cheese will provide sufficient protein of the best quality for an average man for a day and fully one-third of his total calories. The simple addition of a pound of wholehearted bread and a couple of pounds of fruit will result in a diet adequate for an adult in every respect and at a most moderate outlay of money and effort."

A half pound of cheese provides all the protein needed by an adult for one day, also furnishing more than 100 calories.

"No news," said Grandma indignantly. "There's a plenty of milk to keep your eyes open. Not a day passes, Jimmy, but I see something interesting going on, right under this window. Seven times this fortnight I've seen a young man ride by in an automobile with the brightest green paint he has on it."

"Lizzie Baker says it's awful—the car, I mean; but Charman says it's becoming. What do you think about it, Jimmy?"

(To Be Continued.)

C.N.R. Colonization Changes Announced

Messrs. McGowan, Gorton, and England, All Well Known In Western Canada

J. McGowan, western manager of Colonization and Agriculture, for the Canadian National Railway, Winnipeg, has been appointed assistant director of the department with headquarters in Montreal, according to an announcement made by Mr. W. J. Black, director of the department. Mr. McGowan will be succeeded in the post by Robert England, who for several years has been content agent, superintendent of colonization for the company with headquarters in London, England.

Announcement is also made of the resignation of L. B. Boyd, manager of land settlement service, in the United States, with headquarters at St. Paul. He will be succeeded by E. H. Gorton, eastern manager of colonization at Montreal.

All three officers concerned in these promotions are well known in Western Canada. Both Mr. McGowan and Mr. Gorton began life on a farm, and Mr. England has had experience among new Canadians in the west and he is the author of "The Central European Immigrant in Canada," which was published last Autumn.

Mr. McGowan came to Canada from Ireland before the war to teach during the war he distinguished himself in the air force and after demobilization he took a course at the Manitoba Agricultural College. On completing this course, he joined the Canadian National Railway, and was placed in charge of colonization work in Europe with headquarters in London, England. He returned to take charge in Winnipeg two and one half years ago.

Mr. Gorton came to Canada from England in 1903, and proceeded to the west where he farmed and, for a time, published a weekly newspaper. He joined the Canadian National Railway, at Winnipeg, in 1924 and was stationed here until 1927, when he was transferred to Montreal.

Mr. England was born in Ireland. He came to Canada as a youth and graduated in arts from Queen's University. Later he took a post-graduate course in Paris, under a manorial scholarship which he won after teaching for some years in Saskatchewan. He was overseas during the war and was the military cross.

As They Understand It
At Smith is a well known scientist on the Julian Shakespeare was in the Caesar. According to answers in a recent high school examinations at Pueblo, Colorado.

Other questions and answers included:
How many parts are there to a sentence? Answer, two, subject and predicate.
How can you tell how poisonous nicotine really is? Answer, nicotine is such a deadly poison that a drop of it on the tail of a dog will kill a man.

Treat Colds 2 Ways
With One Treatment

RUBBED on throat and chest, Vicks does two things at once:

(1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and

(2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

CHAMPION CHATTER

Vol. 3

Thursday, March 3, 1930

No. 3

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

The merchandise we sell must please you, not only at the time the sale is made, but your satisfaction with your purchase must continue long after the merchant has left. That is our policy.

Our friend, Bob Tyler, is improving slowly after he had set back on Sunday last.

Light draft and good work are two essential features that have been built into Mc-Deering Grain Drills by the men who designed them. Step in and look over the line.

Our heartfelt sympathy goes out to the Parley Peterson family in this sad bereavement. We are sure the whole community joins in this expression of sympathy.

"Good Equipment Makes a Good Farmer Better."

You know that an accurate governor on a tractor engine was essential for satisfactory operation on drawbar as well as on belt work, but did you know that present models of Mc-Deering Tractors have governors with all working parts entirely enclosed and with all joints thoroughly oiled, thus insuring even-running at all times with practically no attention?

Jack Howerton is back from Peace River country arranging things for spring work here. He reports a very nice winter up there and is returning the first of the month.

He Admired 'Em
"What nice little boys you've got. And how old are you?"
"Twelve years old."
"But you can't be that old."
"Yea. Six years a piece."

Ray and Mrs. Warren have just returned from

an extended trip of nearly six months duration in Colorado and Missouri and report a lovely trip.

"My Mc-Deering Separator earns money at every turn of the crank, and it is a marvel how easy that crank turns," said one lady.

Take care of customers and the profit will take care of itself.

Our friend, Bob Tyler, is improving slowly after he had set back on Sunday last.

Light draft and good work are two essential features that have been built into Mc-Deering Grain Drills by the men who designed them. Step in and look over the line.

Our heartfelt sympathy goes out to the Parley Peterson family in this sad bereavement. We are sure the whole community joins in this expression of sympathy.

Hall on Wednesday, March 10th. The company is well balanced and decided historic ability was shown by practically all the members. The Elks are to be congratulated on sponsoring so successful a play, the fact that the characters were taken by amateurs being lost sight of in the fact that many professional companies fail to reach the standard of acting which prevailed in "A Strenuous Life."

Who wants a Ford Tudor, Cheap?

Equipped with bumpers, front and rear, starter and accelerator. Runs like a Ford should run. Any reasonable offer accepted. Also

A 1924 Ford Touring, \$35.00 as it stands.

OUT OF

Your Seed Bed

Come

Your Harvest PROFITS

Out of the furrows you turn-out of the acres you work-out of the seed beds you prepare come the crops which give you your harvest profits. The time to do this work is when the land is right—the way to do it is with a CATERPILLAR tractor. On their wide cleared tracks they travel summer-fallow without packing, heavy pot-holes without coughing and groaning. Stamina they've got for every job—power to do it easily, steadily. There's a size for your farm. It will prepare your seed beds and put your crops in while the land is right. Bigger harvest profits will result—bigger profits every day of the year.

For prices and full particulars write to

Union Tractor & Harvester COMPANY, LIMITED

Ninth Avenue and Eighth Street West Calgary, Alberta

Local and General

R. M. Long of Calgary was in town during the week.

T. Geddes' postponed auction sale takes place March 21st.

Note auction sales of Millin & Patterson and C. H. and Mabel Sutton elsewhere in this issue.

Mr. and Mrs. Art Anderson of Calgary were guests of Mr. and Mrs. Harry Smith this week.

Be sure and attend the tea at G. M. Campbell's residence on Saturday. Proceeds for the tennis court.

A birthday party for Muriel was held at the home of Mr. A. Hopkins Friday night. About forty were present.

Walter Willies was operated upon in the Holy Cross hospital, Calgary, on Saturday, and is reported to be progressing very favorably.

A pie social will be held in the United church on March 10. Program of pantomimes, monologues, music, etc., from town and country talent.

Mrs. C. Williamson and Miss Lois Philpot attended the banquet and dance in the Marquis hotel Lethbridge given by the Alberta Telephone Co., last week.

Mr. and Mrs. McIntyre have moved to the G. F. Smith residence, and Mr. and Mrs. J. Buchanan have moved into the premises vacated.

R. Tyler has been ill for the past two weeks but is reported to be improving slowly. The Chronicle joins in the general wish that he will soon be around again.

A new rim and tire 32 000 was lost from a Paige car the night of the show in Champion. A suitable reward will be paid upon return to the Chronicle office.

Mrs. F. C. Alecock of Champion has been a visitor at Edmonton attending the meeting of the provincial board of the Alberta Women's Institute at which plans were made for the annual convention being held in Calgary the week of May 30.

At the regular meeting of the council of the Municipal District of Harmony, held on Thursday, A. J. Miller was elected reeve and E. H. Griffin deputy reeve. An 80 h.p. Clear engine was purchased for roadwork during the coming season, when it is anticipated a large amount of grading will be done.
